

Career Objective

As an enthusiastic and passionate technologist with competitive skills in a comprehensive range of programming languages, tools and technologies, I am passionate to leverage my abilities and qualifications to thrive as a Front-End Web Developer by focusing on clean code, user driven application and fixing the bug.

Skills

Expertise:	React JavaScript ES6 Express JS HTML5 Tailwind Bootstrap Firebase Authentication
Comfortable:	REST APIs JSON Web Token MongoDB Axios Stripe Payment daisyUI
Familiar:	Node JS Next JS
Tools:	VS Code GitHub Figma Vite Netlify Vercel
Interpersonal:	Leadership Team Player Communicative Negotiation Positive Mindset Attentive Punctual

Projects

➤ **Life Learning** (A website of learning different languages & selling courses) [Live Link](#) GitHub > [Client](#) | [Server](#)

- ❖ A Student can enroll courses with stripe payment system and see the enroll courses and payment history.
- ❖ An Instructor can add a course by a add form and see the enrolled students and rest of seats and course status.
- ❖ Only Admin can make instructor or admin to another user and approve or deny the courses of instructors

Tools & Technologies: Vite | NodeJS | ExpressJS | Tailwind | daisyUI | MongoDB | Firebase | JWT | Axios | React
Awesome Reveal | Stripe | TanStack Query | React Icons | React Hot Toast

➤ **Kiddoz Kuddoz Doll Shop** (A website of doll selling shop) [Live Link](#) GitHub > [Client](#) | [Server](#)

- ❖ A User can see the dolls and view details of a doll by login and after login it redirect the destination.
- ❖ After login a Seller can add a toy for sell and see their own added toys and can also update the information.
- ❖ User can search their toys by name and twenty toys will show and see all toys button. Seller can be sorting their toys by higher and lower price.

Tools & Technologies: Vite | NodeJS | ExpressJS | Tailwind | daisyUI | MongoDB | AOS | React Toastify | React Spinners | React Icons | Sweet Alert 2

➤ **Iranian Food Hub** (A website of Iranian famous chefs & their recipes) [Live Link](#) GitHub > [Client](#) | [Server](#)

- ❖ User can see the chefs and need login to view recipe and here used firebase authentication.
- ❖ User can add their favorite food by clicking favorite button and the button will be disable.
- ❖ Used Express to make API and lazy load during loading data.

Tools & Technologies: Vite | NodeJS | ExpressJS | Firebase | Tailwind | daisyUI | React Lazy Load | React Toastify | React Icons

Other Experiences

- Territory Officer at Unilever Consumer Care Limited in Sales (June 2020 – March 2021)
- Territory Officer at GSK Bangladesh Limited in Sales (May 2019 – May 2020)

Education

- Bachelor of Business Administration in Marketing from University of Rajshahi (2013-2017)

Achievement & Courses

- Complete Web Development Course with Jhankar Mahbub Batch 07 from Programming Hero.

Language

- Bengali (Native)
- English (Fluent)
